Saurashtra University – IIC

The university is dedicated to instruction, research, and extending knowledge to the public (public service). Ministry of Education (MoE), Govt. of India has established 'MoE's Innovation Cell (MIC)' to systematically foster the culture of Innovation among all Higher Education Institutions (HEIs). The primary mandate of MIC is to encourage, inspire and nurture young students by supporting them to work with new ideas and transform them into prototypes while they are informative years. Saurashtra University is one the Organization that have constituted the IIC to foster the vision of MoE and be a part for the promotion and development of innovation ecosystem.

Event Schedule

04:30	Welcome
04:35	Awariness Session
05:20	Q & A
05:30	Closing Ceremony

Brief about Event

SU Startup and Entrepreneurship Council (SUSEC), together with the Institution's Innovation Council (IIC) and Department of Electronics, Saurashtra University, organized a webinar to commemorate National Technology Day. The program aimed to celebrate technological innovation, disseminate insights on emerging electronics trends, and inspire research and entrepreneurship among faculty and students.

The session featured insightful discussions highlighting how advancements in science and technology are driving positive change in society. Speakers underlined the importance of startups, entrepreneurship and academic-industry collaboration in promoting technological growth. The event encouraged students to think innovatively and explore opportunities in emerging tech-driven sectors.

The program highlighted the significance of indigenous technological advancements and promoted the theme of sustainable and inclusive innovation. Faculty members, students, researchers and innovators from various disciplines participated in the event, showcasing their interest in scientific development and entrepreneurship.

Faculty members, students and innovators actively participated in the celebration. The program served as a platform to spread awareness about India's scientific achievements and inspired the young generation to contribute meaningfully to the nation's progress through technology and innovation. The celebration successfully encouraged young minds to explore opportunities in science and entrepreneurship for a better future.

Key Points

During the session, below mentioned points were discussed:

- ☐ Theme: Promoting technology for sustainable future
- ☐ Focus on innovation and indigenous technologies
- ☐ Emphasis on startups and academic-industry collaboration
- ☐ Encouraged student innovation in emerging tech sectors
- ☐ Raised awareness of India's scientific achievements
- ☐ Inspired entrepreneurial mindset and problem-solving skills

Outcome

The celebration of National Technology Day successfully served as a platform to raise awareness among students and faculty about the vital role technology plays in nation-building. Through various informative and engaging sessions, the event highlighted how advancements in science and innovation contribute significantly to the country's progress and self-reliance. It inspired participants to think beyond conventional academic learning and embrace innovation as a key driver for societal transformation. The discussions and presentations encouraged young minds to explore entrepreneurial paths, develop problem-solving abilities and contribute to the development of impactful, technology-based solutions. Moreover, the event reinforced Saurashtra University's strong commitment to fostering a culture of innovation, promoting technology-driven education and aligning academic initiatives with the broader goals of sustainable development and national growth.
